"Three Moves are as Bad as a Fire."—Franklin.

When sagacious Benjamin Franklin uttered the above quotation he did not dream that the future would develop O'Brien's modern moving methods, which minimize the wear and tear, breakage and vexation of moving work. Let me figure on your next job. I'll relieve you of all worry and bother and show you how easily and satisfactorily your moving job can be accomplished by experts—the O'Brien way.

— ONE GETS RESULTS —

FROM THE

WEYMOUTH GAZETTE AND TRANSCRIPT

A BIG TOWN—15,000 POPULATION

A BIG PAPER—16 PAGES EVERY WEEK

A Bargain is not what you pay but what you get. If you fail to get the quality you waste your money, no matter how small the amount you pay. It is so with ADVERTISING. Unless you get the best service, largest circulation, and highest-grade subscription list with every inch of advertising you buy, you are not getting a bargain.

We offer these three vital items coupled with reliability and results.

HOUSE AND STREET DIRECTORY

Copyright 1922, W. A. Greenough & Co., Boston, Mass.

Houses and places of business, designated by their street numbers are arranged alphabetically by streets and in numerical order.

The location of each alley, avenue, court, place, road, square, street, terrace and way, is given, also the intersection of all other streets in bold face type.

If you wish to know which streets begin at, cross or end at Hancock Street, look in list and you will find that at 49 River begins, 407 Billings rd crosses, 783 Clay ends, etc.

The * preceding any number indicates a telephone at that number.

Quincy is divided into four postal districts. Mail addressed to 69 will be delivered to Quincy Centre and W. Quincy, 70 Wollaston, 71 Atlantic, 87 a small section of W. Quincy at E. Milton line.

"SPEED THE DELIVERY OF YOUR MAIL." Mail rehandled is DELAYED. 125,000 letters are rehandled daily in the Boston District on account of INCOMPLETE ADDRESSES. Supply your correspondents with your CORRECT NUMERAL in the same manner as you now furnish your street address, and include the numeral when addressing mail for delivery in the Boston Postal District."—Boston Postmaster.

In addressing letters, the Postal Station number should be added to the Postal Station name.

To your present address add the postal number after the city or town or postal unit, if in doubt as to your unit, ask your carrier.

John Smith, 116 E. Squantum, Atlantic 71, Mass.

John Smith, 226 Eliot, Quincy 69, Mass.

Every Store

should be in the Directory and the Directory in
every store.

Beside its use to the keeper of the store, it is
a convenience customers look for.

The store that offers an old or no city directory
does not show its patrons a courtesy they will
find elsewhere.

Barrett Everlastic Roofings

and Specialties

FOR over sixty years we have been making roofings and other materials for farm and home. Every article on our list, therefore, may be bought with absolute assurance that it will be found thoroughly practical and reliable in every way.

EVERLASTIC MULTI-SHINGLES—Four shingles in one, each strip being as easily laid as a single shingle of any other kind. Saves labor and nails. The surface is "slated" in red or green. These Everlastic Multi-Shingles give a double thickness all over the roof, with three thicknesses where the wear is most severe. Fire-resisting.

EVERLASTIC SLATE-SURFACED ROOFING—A really splendid roofing, beautiful and artistic when laid. Slate-surfaced, yet sold in rolls. Made from the same materials as Everlastic "Rubber" Roofing with a special wearing-surface of crushed-slate particles, either red or green. Makes a fire-resisting and very durable roof.

EVERLASTIC TYLIKE SHINGLES—Same material as the Multi-Shingles, in red or green. Cut in single shingles, 8 x 12 $\frac{3}{4}$ in. Laid like ordinary wooden shingles and provide a triple thickness all over the roof. Make a beautiful, fire-resisting roof that will give long service.

EVERLASTIC "RUBBER" ROOFING—The most widely used of all our roll roofings, protecting hundreds of thousands of buildings all over the world. Tough, pliable, water-proof, and low in price. Very easy and economical to lay as no skilled labor is required. Nails and cement packed in each roll.

ELASTIGUM—This wonderful water-proof cement has a hundred different uses. Especially useful for mending gutters, joints around chimneys, parapets, skylights, etc. It is easy to apply, is acid-proof, damp-proof, and it sticks. Can be used in wet weather.

BARRETT'S CARBOSOTA LIQUID CREOSOTE OIL—Is the most efficient wood-preservative on the market today. It combines in the highest degree ability to penetrate deeply into the wood, antiseptic action toward fungous growth and insects, and resistance to the action of water and air. Its use will cut your wood-preserving bills in half.

EVERJET ELASTIC PAINT—Everjet is a high-grade carbon paint for industrial use; has no equal for protecting metal of all kinds against corrosive action of acids, alkalis, fumes, vapors, etc. Being elastic, extremes of heat or cold do not affect it. Water-proof and fire-retarding. Gives a perfect coating unbroken by pinholes or blebs. Try it.
